Presentation Overview

K-12

- WASL achievement, graduation rates

Community and technical colleges

- Enrollment, student progress, degree attainment

Four-year universities

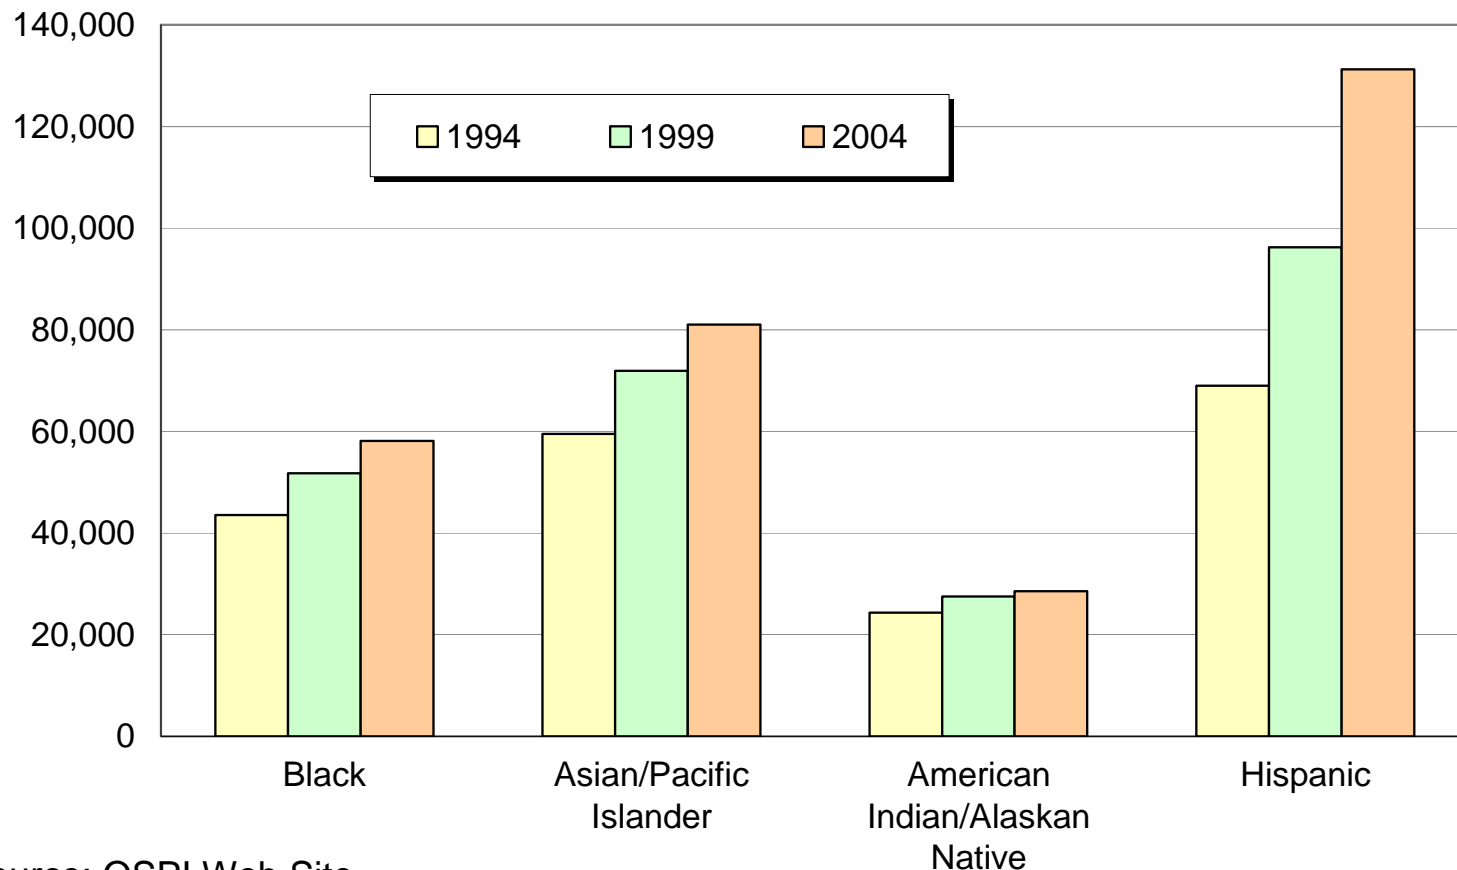

- Enrollment, student progress, degree attainment

Population projections

Themes and Highlights

- More students of color are achieving in K-12 and participating and succeeding in higher education, but...
- Rates of change have been relatively slight
- Persistent racial/ethnic achievement gaps are present in all sectors
- The makeup of Washington's population will change substantially in the next 15 years, making these issues ever-more-important for policy makers

Public K-12 Enrollments in Washington State by Race/Ethnic Minority: 1994, 1999, 2004

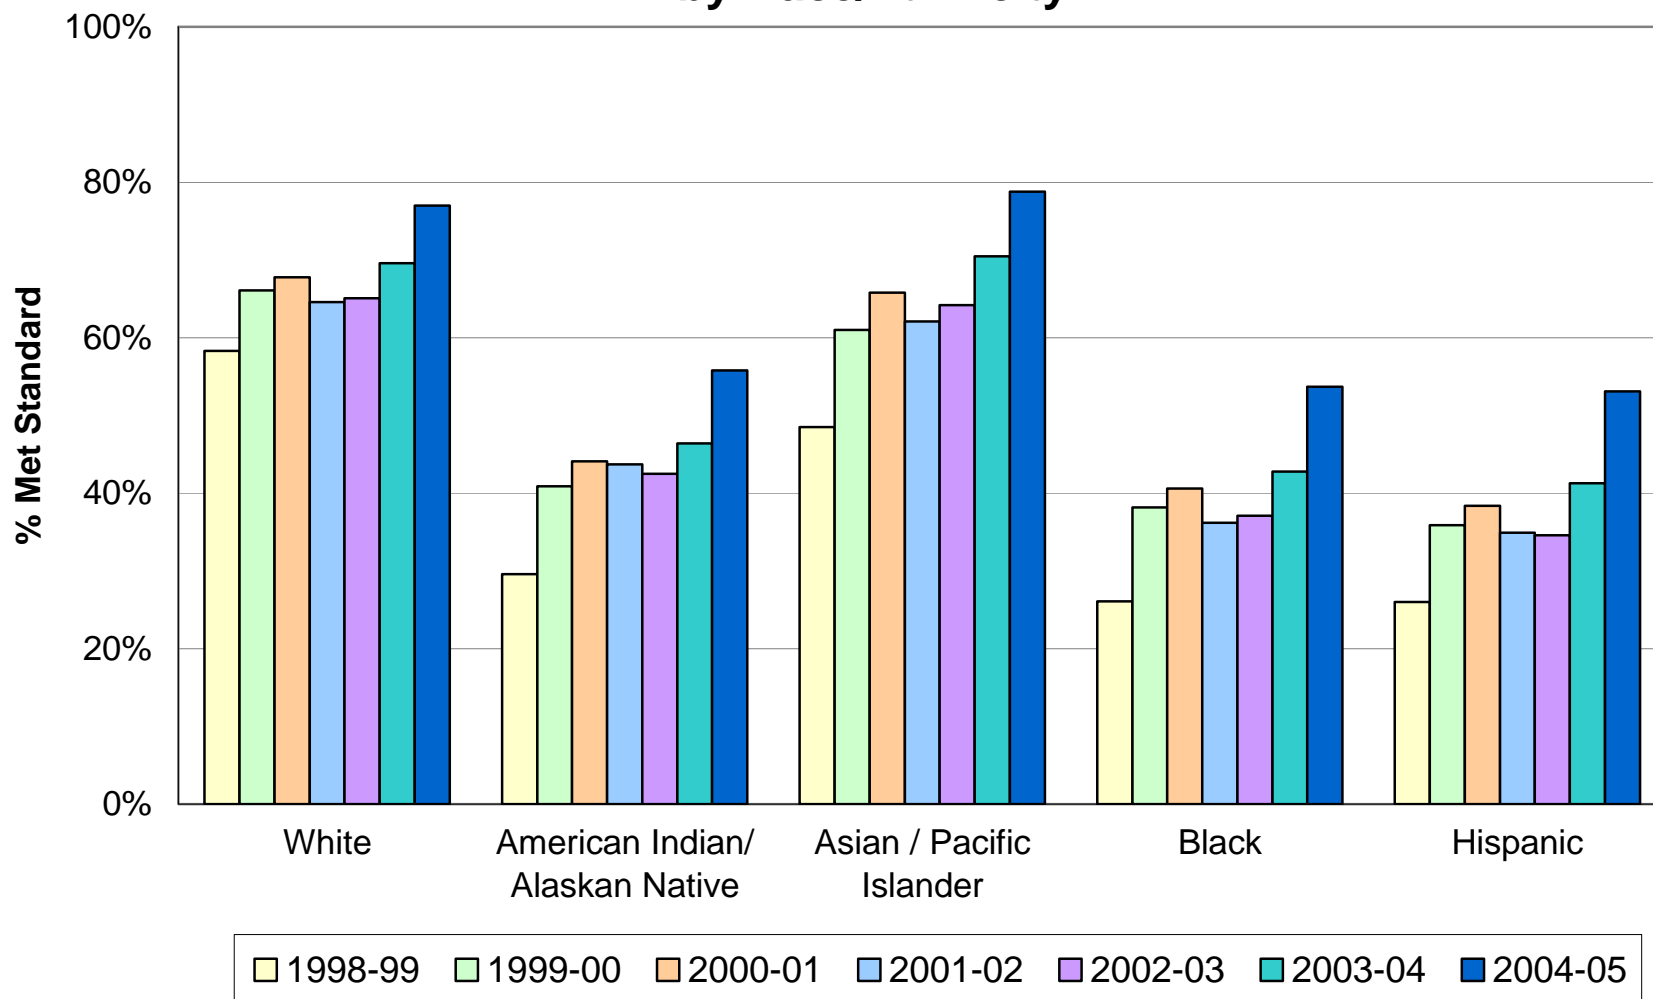

Source: OSPI Web Site

White enrollments exceed 700,000 currently.

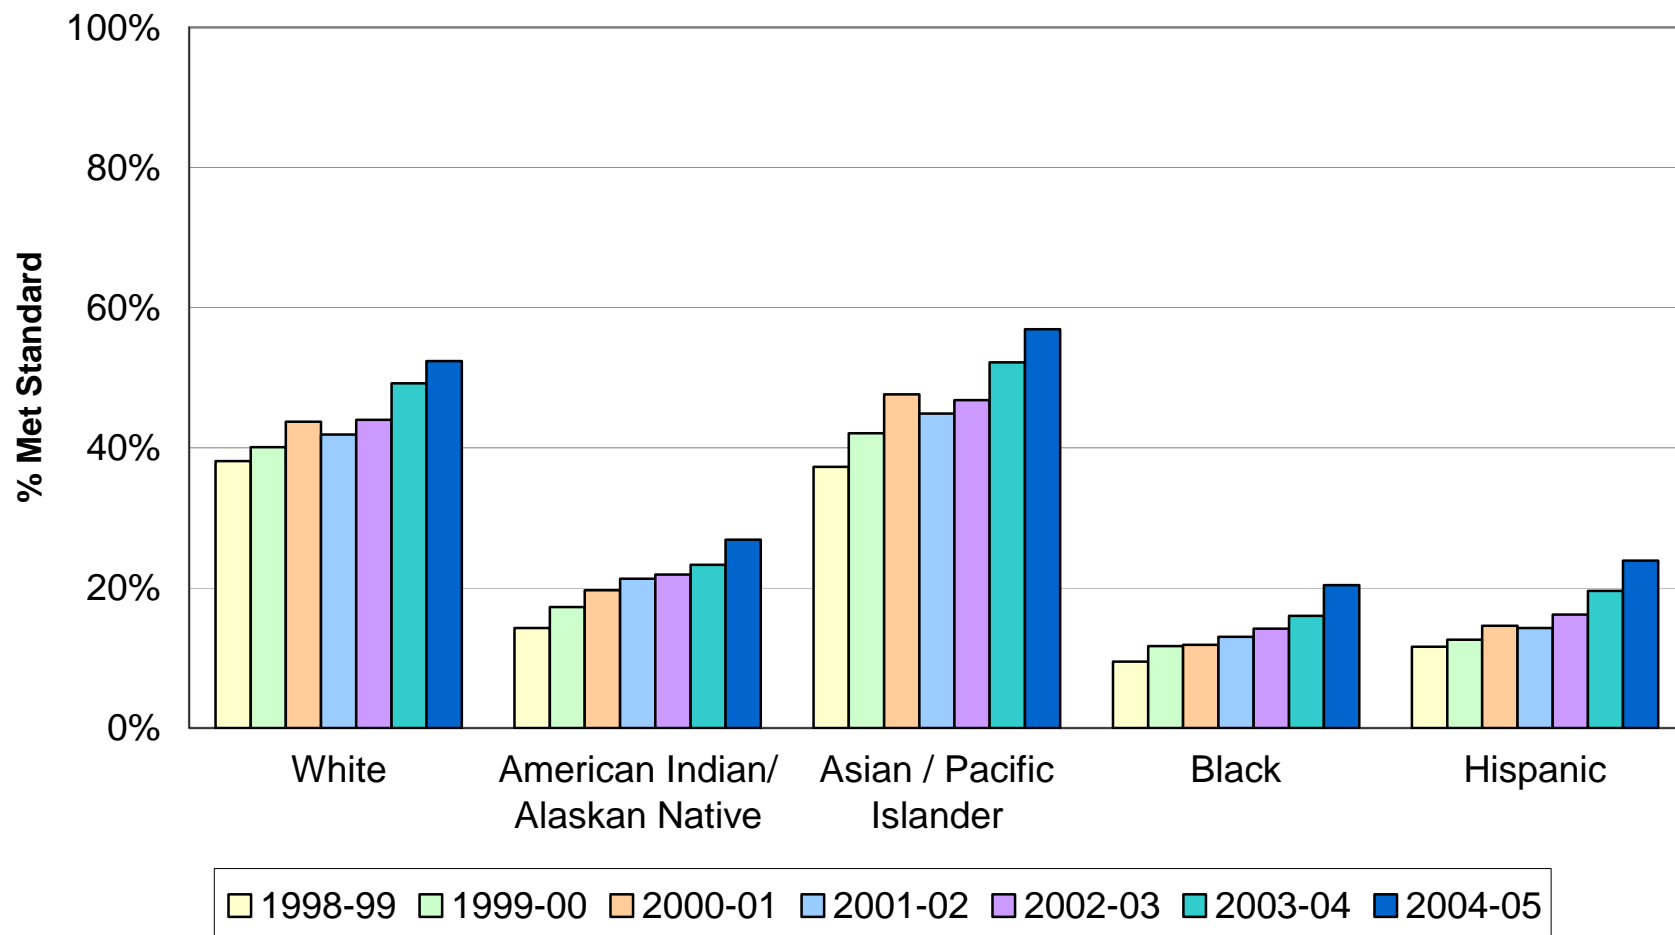

2004 data include two categories not shown here: "Multi-Racial" and "Not Provided"
